## PUBLIC ADVERTISEMENTS

OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

**Press Note.**

Dated 17th February 1950.

MEETING OF OFFICERS AND MINISTERS.

There was a meeting yesterday afternoon of all the Heads of Departments and Secretaries to Government in the Legislative Assembly Hall, Public Offices, at which all the Ministers of the Cabinet were present. The Hon'ble the Chief Minister addressed the Officers present and recalled the suggestions he had put forward on a previous occasion in regard to devising ways and means to make Governmental work more efficient. He said that many useful suggestions were received from the Departmental Heads in this connection and said that all these suggestions were being carefully considered by a Sub Committee and that every effort would be made to give effect to the Committee's recommendations. He also stressed the need for the Officers realising the import of the changes that had been effected in the country during these few months and the consequences that have resulted from these changes He indicated that there was scope for decentralising a major portion of Governmental work so that the Ministers who have now been assuming responsibility for all kinds of departmental work should be relieved to that extent, so as to devote themselves to matters of policy and programme.

The second point that the Hon'ble the Chief Minister stressed was the imperative need on the part of the officers to dispel the prevalent cumulative impression in the minds of the people that there was delay in the disposal of Government work. He said that a co-operative endeavour in this respect between the Officers and the Ministers should be made to see that better results were achieved, which would go a long way in convincing the people of the State that the Government were here to look to the needs of the people first and foremost.

The third suggestion he gave was the necessity on the part of the officers to exercise the greatest caution in matters of finance. This had become necessary on account of the general financial situation, which was not only peculiar to Mysore but to the other parts of the country as well. In this connection; he recalled that at the previous meeting of officers he had stressed the necessity of seeing that all the grants sanctioned for the respective departments were expended fully and not allowed to lapse. Now, the whole financial picture was different and the officers had to see that the greatest economy was observed even in expending sanctioned grants. He exhorted them to economise in every possible direction and to remember that so far as spending was concerned, the policy of every Department was to go slow. This, of course, did not imply that necessary and vital work of each department would be thrust to the background to the detriment of the people. He also appealed to the Officers to honour, both in letter and spirit, the memos issued frequently by the Secretariat under the instructions of the Cabient on this subject. The Economy Officer's report was before Government, who were examining the elimination of all avoidable items of expenditure. There should be a general tightening up of belts. He indicated that it was possible that it might not be necessary to resort to salary cuts, either voluntary or otherwise, in the Services to the extent that the Departments themselves really effected economies in their day-to-day expenditure.

The Hon'ble the Chief Minister also stressed the necessity for frequent meetings of the Departmental Heads with the Ministers concerned in an all-out effort to speed up the work, since the next year or two would be a period of consolidation rather than quantitative expansion.

He also dwelt on the relationship between the Ministe and the Services in a Democratic form of Government and sa that the responsibilities of the Services were now greater th ever before, since they would have to carry on the day-to-d administration irrespective of what Ministry was in offi The Civil Service was and ought to be known to be the st frame, not for putting down peoples' aspirations but to s that these aspirations should be translated into action a that whatever was necessary in administrative matters w done with the utmost expedition.

He also said that there were instances of lack of prop response from some departments to the remarks and comme of the Efficiency Audit Department. The Secretaries to Gove ment, he said, would herea ter be senior men in the Servic who could not only take over greater responsibilities but a fearlessly give their opinions on files. He requested the He of Departments not to try to go over the heads of the respect Secretaries to Government but leave it to the latter interpret their needs and recommendations to Governme who would then be in a posi ion to take correct decisions.

Mysore, in common with other parts of the country, had face complicated problems like the shortage of food, the l living standard of the people, etc., and it was imperative ag that every sector of the Administration should devote it wholeheartedly to this work. He also referred to the urg need of paying more attention to the Grow More Food Ca paign, the financial assistance already received from Government of India and also to the possibility of more finan assistance, if actual results were obtained in the shape of m foodgrains.

The Hon'ble the Chief Minister stressed the desirability eliminating delay in the disposal of petitions and said tha would be better if Secretaries to Government dealt with th directly.

Concluding, he said that the people of the State expecte gre t deal from their Government and it was up to the Offic and the Ministry to have a sympathetic and earnest appro to their problems. He hoped that, by the Grace of God a by their own efforts, it would be given to the present team Ministers and Officers to fulfil the people's aspirations.

## ENCLOSURE COPY.

Dated 5th February 1948.

To

The Heads of Departments and Indenting Officers.

Sir,

**No. S.P.C. 18759-910.** It has come to the notice of the Stores Purchase Committee that Indents for Stores to be purchased through the Stores Purchase Committee Office are being sent in an incomplete manner. Quite often indents are being sent at the last moment without allowing sufficient time to the Committee to arrange for the purchase in the best possible manner. Where indents are required to be prepared in advance for meeting the requirements of the coming year, it is not being done but casual indents just as and when necessity arises for the materials, are being sent involving much avoidable correspondence and work.

The attention of all Heads of Departments and Indenting Officers is therefore invited to Chapter III of the Stores Purchase Manual prescribing the rules and procedure to be followed by Indenting Officers in this respect. They are reproduced as annexure hereto for purposes of easy reference.

The particular attention is invited to paras 4 to 6. All the Heads of Departments and Indenting Officers are therefore requested to see that casual indents are kept down at a minimum and that annual indents are prepared and sent to the Stores Purchase Committee Office sufficiently well before the 1st of July*, next allowing at least a period of three months for arranging supplies.

It is to be made definitely clear that indents which are not prepared in the prescribed forms (Form A for articles made or obtained in India and Form B for articles to be imported from abroad) furnishing full information and which are not sent in accordance with the rules in Chapter III of the Stores Purchase Manual will not be entertained in future.

A copy of each of Forms A and B is also enclosed for reference.

Yours faithfully,
